4. PERMITS:

4.1 **Open Air Burning Permit**

An Open Air Burning Permit is required for the following:

- (a) open air burning of trees, slash or any materials related to the preparation and/or cleanup of a building or development site, logging operation or industrial application; provided however that the Fire Chief or designate may, at their discretion, impose any conditions on such permit that is deemed necessary in the interest of safety and protection of the environment;
