May 6, 2024

Resident,

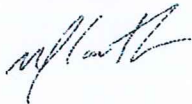

Effective immediately, the Boil Water Notice applied to your property on May 1, 2024, is no longer in effect.

The City has completed two separate water quality tests that confirmed the water in your area is safe to consume.

Before you consume the water, please run the faucets in your house for a minimum of one minute to ensure the lines are flushed with clean water.

If you have any questions, please reach out to the City at 250-365-5979.

Sincerely,

Matt Clouthier
Assistant Manager – Utilities
City of Castlegar
